# VM Building Solutions

## A reliable partner for roofs and façades.

VM Building Solutions is your preferred partner for high-quality copper and zinc products as well as high-quality EPDM waterproofing membranes.

VM Building Solutions is the **exclusive distributor of the Nordic Copper architectural products** all over the world with 14 different material and surface variants.

VM Building Solutions is a **world leader in the production of zinc for building**, selling zinc for roofing and façade applications in more than 30 countries under the international VMZINC® brand.

As a **European supplier of EPDM waterproofing membranes**, VM Building Solutions distribute a complete range of roof and façade membranes to building professionals throughout Western Europe.

>> “We are proud to be the exclusive distributor of Nordic Copper. With 185 years’ experience in zinc and 40 years’ experience in EPDM, VM Building Solutions is regarded as the benchmark and partner for roofing and façade professionals on the European market and beyond.”

Hendrik Deraedt, Managing Director VM Building Solutions
